INNOHACK-26

PARTICIPANT GUIDELINES

24-HOUR HACKATHON CHALLENGE

24 & 25 SEPTEMBER 2026

₹500 / PARTICIPANT

₹50K OVERALL PRIZE

41 BUS ROUTES

A practical route from registration to final demo. Read this guidelines document before you travel, build and present with your squad.

CODE • DESIGN • INNOVATE • REPEAT

YOUR MISSION MAP

Everything you need to prepare, register, travel and arrive ready to build.

01 // MISSION BRIEF

Event date, venue, 24-hour format, ₹500 participant fee and ₹50K overall prize.

02 // REGISTRATION PATH

A step-by-step route to the official form, confirmation and community updates.

03 // BUILD DOMAINS

Five build directions to frame your solution and select a suitable real-world problem.

04 // PREPARE + TRAVEL

Your personal checklist, 41-route transport instructions and arrival support.

05 // EVENT FLOOR

How to arrive, build, demonstrate and follow organiser announcements.

06 // HELP + GLOSSARY

Contacts, FAQs, official links and terms used in this handbook.

IMPORTANT

This guide contains organiser-confirmed information available at publication time. If an official announcement changes a time, eligibility condition, judging criterion, payment instruction or operational rule, the latest organiser communication takes priority.

1 Build for the ₹50K signal

InnoHack-26 is a 24-hour hackathon presented by the Mechanical Engineering, Robotics & Automation, and Electronics & Instrumentation Engineering departments of Erode Sengunthar Engineering College. Bring a problem worth solving, create a working prototype, and use the 24-hour sprint to turn a signal into something people can see, test and discuss.

EVENT WINDOW

DATES 24 & 25 September 2026

FORMAT 24 hours · one build

MISSION DESTINATION

VENUE Erode Sengunthar
Engineering College
(Autonomous)

LOCATION Perundurai – 57

MISSION ENTRY

FEE ₹500 per participant

WHY IT MATTERS Your entry begins the
official registration
journey.

REWARD TRANSMISSION

OVERALL PRIZE ₹50,000

ADDITIONAL Five special-prize slots;
criteria announced by
organisers.

THE VALUE MESSAGE

₹500 TO ENTER. ₹50K TO CHASE.

Your entry gives you a place in the 24-hour build environment, access to organiser updates and the chance to present a working solution for the overall reward.

2 Register with the official signal

Figure 1: Official InnoHack-26 event brochure. Scan the updated QR or use the official form link below to begin registration.

OFFICIAL REGISTRATION FORM

Open the InnoHack-26 registration form

Use the current organiser-approved form. If the form asks you to sign in, follow the access instructions shown by Google Forms.

OFFICIAL WHATSAPP COMMUNITY

Join the INNOHack 26 WhatsApp Community

Use the community for organiser updates, schedule notices, reminders and logistics communication.

2.1 Registration route

01 Open the official form

02 Enter accurate participant details

Scan the QR on the brochure or use the printed registration link. Do not rely on unverified copies of the form.

Use the exact name, contact information and squad details required by the official form. Recheck every field before submitting.

03 **Follow fee instructions from organisers**
The registration fee is ₹500 per participant. Use only the payment or confirmation method communicated through official channels.

04 **Keep your confirmation**
Save the confirmation message or response evidence. It may be useful for follow-up, check-in or organiser communication.

05 **Join the official community**
After registration, join the WhatsApp Community and check it regularly for schedule and logistics messages.

06 **Prepare for check-in**
Keep your student identification, contact information and travel plan ready for the organiser-directed check-in process.

3 Choose a build orbit

Select the build domain that gives your idea the strongest real-world context. You can begin with a problem, a need, a prototype concept or an opportunity to improve an existing system.

01 // ROBOTICS & AUTOMATION

Build intelligent machines, assistive systems, autonomous workflows or human-friendly controls for physical systems.

02 // SMART MANUFACTURING

Explore maintenance, safety, quality, digital workflows, resource awareness or factory-floor intelligence.

03 // ELECTRONICS & INSTRUMENTATION

Turn sensing, embedded intelligence, measurement and control into usable decisions.

04 // SUSTAINABILITY & GREEN TECH

Build for energy resilience, circular systems, cleaner mobility or more responsible resource use.

05 // OPEN INNOVATION

Bring a real problem worth solving and build the first working signal. If it matters beyond the event, it belongs here.

3.1 From arrival to final demo

BEFORE YOU LEAVE

Complete registration, join the community, plan your route, charge devices and pack the essentials for your build.

WHEN YOU ARRIVE

Follow organiser directions for check-in, venue movement, safety, workspaces and any event-specific updates.

DURING THE BUILD

Focus your squad on a clear problem statement, an implementable idea, a

AT THE END

Prepare your final demonstration: explain the problem, show the solution,

working prototype and an understandable story.

demonstrate how it works and communicate its practical impact.

4 Pack for the build, not just the trip

Use this checklist as your squad's preparation baseline. Organiser announcements and venue instructions remain the final authority for permitted materials and operational requirements.

PERSONAL ESSENTIALS

- ☐ **Student identification** — Keep a valid ID ready for verification.
- ☐ **Phone + charger** — Keep the official community and route contacts accessible.
- ☐ **Comfortable travel plan** — Know your bus route, boarding point or campus arrival plan.
- ☐ **Alternate contact method** — Keep a family or squad contact reachable if travel changes.

BUILD ESSENTIALS

- ☐ **Laptop + charger** — Ensure devices are updated, charged and ready to build.
- ☐ **Project-specific hardware** — Carry required electronics, tools or materials only after checking organiser guidance.
- ☐ **Backup files** — Keep essential code, assets or notes available offline as a sensible precaution.
- ☐ **Presentation plan** — Agree on how your squad will explain the problem, solution and prototype.

4.1 What organisers have not yet fixed in this guide

CONFIRM THROUGH OFFICIAL ANNOUNCEMENTS

Team-size limits, detailed judging rubric, exact check-in reporting time, food arrangements, payment method, internet details, equipment restrictions and special-prize criteria were not supplied as final rules. Do not assume them. Check the official WhatsApp Community and organiser messages before the event.

5 Land at the right gate

The organiser-provided transport information identifies 41 active college bus routes, more than 180 boarding stops, free campus-shuttle support for hackathon teams and a 24×7 logistics helpdesk. Use the website route directory before you travel, then speak to the listed driver if you need route-specific confirmation.

41 ACTIVE ROUTES

Use the website's View All 41 Routes action to reveal route number, origin, start time, map link and driver-contact action.

180+ BOARDING STOPS

Search your route number, origin or phone in the route directory. A one- or two-digit route number is set up for exact route search.

FREE CAMPUS SHUTTLE

The source transport directory reports free campus shuttle support for hackathon teams. Follow current organiser instructions for use.

24×7 LOGISTICS

For late arrival, train delay or pickup coordination, use the official logistics helpdesk rather than relying on unofficial messages.

LATE ARRIVAL · TRAIN DELAY · EMERGENCY PICKUP COORDINATION

24×7 LOGISTICS HELPDESK

CALL 04294-232701

The supplied directory publishes this helpdesk for dedicated transport assistance. A separate emergency-vehicle number or vehicle specification was not published in the source information.

5.1 Simple travel protocol

Check

A

Open the transport directory, search your route and note the start time and boarding point.

Confirm

B

Use the direct map route and driver-contact action if you need route-

Escalate

C

For late arrival or travel disruption, contact the logistics helpdesk and follow

specific direction
confirmation.

organiser
guidance.

6 Official contacts

Use official contacts for event-related questions. For general registration or communication updates, begin with the official form, WhatsApp Community and event email. For department coordination, use the relevant coordinator contact below.

7 Frequently asked questions

7.1 What is InnoHack-26?

InnoHack-26 is a 24-hour hackathon challenge where participants build, test and demonstrate solutions around practical engineering and innovation problems.

7.2 When and where does it take place?

The event is scheduled for 24 and 25 September 2026 at Erode Sengunthar Engineering College (Autonomous), Perundurai – 57.

7.3 What is the registration fee?

Registration is ₹500 per participant. Follow only organiser-approved instructions for any payment or registration confirmation step.

7.4 What is the prize?

The overall prize is ₹50,000. Five special-prize slots are also announced; category and award criteria will be communicated by the organising team.

7.5 Which ideas can we build?

You can work in Robotics & Automation, Smart Manufacturing, Electronics & Instrumentation, Sustainability & Green Tech or Open Innovation. Choose the domain that supports your solution's strongest use case.

7.6 How do I travel to the campus?

Use the website's 41-route directory to search a route, open its map link and call the listed driver. For late arrival, train delay or pickup coordination, call the 24×7 logistics helpdesk at 04294-232701.

7.7 What should I bring?

Bring your student ID, laptop, charger, relevant hardware or project materials, and a clear plan for your working prototype. Check official announcements for any final restrictions.

READY FOR LIFTOFF

CODE · DESIGN · INNOVATE · REPEAT

FINAL LAUNCH CHECK

- ☐ **Register officially** — Complete the current Google Form and retain your confirmation.
- ☐ **Know the fee** — ₹500 per participant. Follow only official organiser instructions.
- ☐ **Join the community** — Use the official WhatsApp Community for live updates.
- ☐ **Plan your route** — Use the 41-route directory or contact the logistics helpdesk.
- ☐ **Pack your build kit** — Student ID, laptop, charger, relevant materials and your squad plan.
- ☐ **Build with intent** — Use the 24-hour sprint to make a prototype that communicates real value.

8 Glossary of event terms

check-in - event check-in: The organiser-directed arrival and verification process at the venue.

demo - final demonstration: The scheduled presentation of a team's prototype at the end of the build sprint.

domain - build domain: One of the thematic problem areas available for a team's solution.

guidelines - participant guidelines: This event preparation and registration handbook.

Final organiser announcements take priority if details change.

hackathon - 24-hour hackathon: A time-bound event where teams identify a problem, build a practical solution and demonstrate their prototype.

helpdesk - 24x7 logistics helpdesk: The official phone line for route, late-arrival and transport coordination support.

logistics - event logistics: Travel, route, arrival and on-ground coordination support for participants.

prototype - working prototype: A demonstrable early version of a solution that communicates how the idea works.

campus shuttle - free campus shuttle: The organiser-announced campus transfer support for hackathon teams.

squad - participant squad: The group of participants registering and building together for InnoHack-26.
